Microsoft Releases Dynamics GP 2010

With over 40,000 customers Microsoft Dynamics GP has always proven itself to be a flexible, powerful business management tool. It is innovative standards keep its long track record for creating insight and efficiency across your business.

[3 for \\$1](#)

New release for Microsoft Dynamics GP2010 has over 150 enhancements. Many of these enhancements improve reporting and the access to your data. A great example of this is the ability to view a report or chart and be able to quickly drill-down to the source data. Enhanced reporting includes more than 90 Microsoft SQL Server Reporting Services and 220 Excel Reports.

The Excel reports include live links to the data. Every time you load the report it will contain up-to-the-minute data. No longer will you have

COMMUNITY CORNER

Shop the BRAND NEW Schaumburg Whole Foods Market on MAY 19th!

5% of proceeds will be donated to the Schaumburg Park Foundation.

No Coupons or Passwords Required, just go shopping!!!! Proceeds benefit the

to create a report and save it to Excel, only to be out of date a few minutes later. Refreshing the data is a click away. The new Excel Report Builder tool allows you build your own Excel reports and include not only data from Dynamics GP, but also data from other custom applications.

The new release of Dynamics GP 2010 continues to look at how people use ERP systems and what they need to make them more efficient. If your accounting system does not provide the information you need to run your business, perhaps now is the time to switch to Dynamics GP. Microsoft is making it very easy to switch with its three users for a dollar promotion. If you have any questions, please contact us.

Sage CRM

SageCRM is an easy-to-use, quick-to-deploy Customer Relationship Management solution comprising sales, marketing, and customer service automation.

Award-winning SageCRM equips these teams with the tools they need to find new customers, close sales faster, and build lasting, more profitable relationships across all channels. Highly flexible, SageCRM comes with fully customizable business process automation so you can tailor it to suit your business needs. SageCRM is a fully web-based application and is available on-demand or on-premise for complete freedom of choice.

Michael Ericksen P.C. uses Sage CRM to effectively track our prospects, contacts, opportunities and clients. We integrate and sync it to our outlook email application and we use it to import our new contacts into our Constant Contact list for newsletters and other email marketing campaigns.

If you would like to learn more about how to use Sage CRM effectively, please contact Kari-Ann Ryan kryan@me-pc.com
